Sequence 8, Application US/09313942

Patent No. 6472179

Patent No. 6472179

GENERAL INFORMATION:

APPLICANT: REGENERON PHARMACEUTICALS, INC.

TITLE OF INVENTION: AND USING

FILE REFERENCE: REG 203-A

CURRENT APPLICATION NUMBER: US/09/313,942

CURRENT APPLICATION NUMBER: 09/311,942

PRIOR APPLICATION NUMBER: 09/311,942

PRIOR APPLICATION NUMBER: 09/311,942

PRIOR FILING DATE: 1999-05-19

PRIOR FILING DATE: 1999-05-19

PRIOR FILING DATE: 1999-05-19

PRIOR FILING DATE: 1998-09-25

NUMBER OF SEQ ID NOS: 32

SOFTWARE: FASTSEQ for Windows Version 3.0

SEQ ID NO 8

LENGTH: 592

TYPE: PRT

ORGANISM: Homo sapiens
                                                                   밁
                                                                                                 ş
                                                                                                                                        밁
                                                                                                                                                                        Ś
                                                                                                                                                                                                                밁

Sequence 8, Application US/09499846
Patent NO. 6656728
GENERAL INFORMATION:
APPLICANT: Kavanaugh et al.
TITLE OF INVENTION: FIEROBLAST GROWTH FACTOR
TITLE OF INVENTION: RECEPTOR-IMMUNOGLOBULIN FUI
FILE REFERENCE: 035784/195012 (5784-
CURRENT APPLICATION NUMBER: US/09/499,846
CURRENT FILING DATE: 2000-02-07
NUMBER OF SEQ ID NOS: 12
SOFTWARE: FASTSEQ for Windows Version 3.0
SEQ ID NO 8
LENGTH: 525
TYPE: PRT
ORGANISH: Homo Sapiens
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Ś
